

Remote Status Light and Combination Displays
Monitor reefer status and fuel level from the driver's seat or the yard.

Stay on top of your reefer's status with just a glance in the rear view mirror!

Remote Status Light Displays

- Helps avoid expensive out-of-fuel shutdowns
- Solid state design - sealed against elements with no bulbs to replace
- Feature high-visibility LED lights and an auto-dimming feature for night driving

Fleet Facts

Running out of fuel is a common and expensive problem that is preventable with the Fuel Combo display.

Preventable expenses include:

- High cost of unscheduled service call-outs for priming
- Risk of battery, alternator and starter damage due to repeated restart attempts without fuel

Triple Combo Display

Light Sensor

Lights automatically dim for better night visibility.

Functioning Properly

Illuminates the white "T" when unit is functioning properly with no alarm codes

Check Alarm Code

Amber "K" is illuminated when the unit has a "check alarm code" but is still functioning. Unit should be checked at earliest convenience.

Shutdown Alarm

Bottom row of amber and white LEDs are illuminated when unit has shutdown alarm. Requires immediate attention.

Temperature Reading

Shows temperature or "dF" when zone is defrosting. Temp readout can be set for direct or mirror viewing. Reads out in degrees celsius or fahrenheit, depending on the controller settings.

Compartment Indicators

LEDs indicate which multi-temp compartment temperature reading refers to (up to 3).

Fuel Level

LED display shows fuel level. As fuel is consumed, white LEDs go out. When fuel level drops below 25% only amber LEDs remain illuminated. When fuel drops below 15%, one amber LED and the amber "K" are lit for check alarm status.

Also Available in Four Additional Configurations:

Status Only Display

Provides on-road visibility to basic functions, including check alarm codes and shutdown alarms.

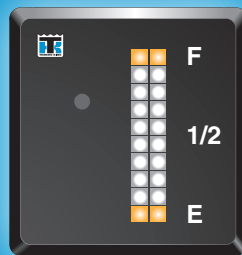

Fuel Combo Display

Offers all features of Status Only display, plus fuel level display and low fuel, check alarm and shutdown alarms.

Temperature Only Display

Displays temperature and can be set for direct or mirror viewing. Utilizes robust air temperature sensor and can be used with all controllers.

Fuel Only Display

Provides on-road visibility of fuel level to help prevent costly out-of-fuel shutdowns.

Ordering Information

For part numbers, see grid 226E6 in the Electronic Parts Catalog.

Thermo King – by Trane Technologies (NYSE: TT), a global climate innovator – is a worldwide leader in sustainable transport temperature control solutions. Thermo King has been providing transport temperature control solutions for a variety of applications, including trailers, truck bodies, buses, air, shipboard containers and railway cars since 1938. For more information, visit thermoking.com or tranetechnologies.com.
